

Beaufort County, South Carolina
General Announcement

May 10, 2018

**Public Meetings to Discuss FEMA's
Private Property Debris Removal Process**

Beaufort County continues to be proactive with its disaster recovery plans. Given the aftermath of Hurricanes Matthew and Irma, the County is reaching out to local private and gated community associations to determine their level of interest in debris removal after a natural disaster. All local private and gated community associations are invited to attend, with the exception of those inside Hilton Head Island town limits. Associations located in unincorporated areas of Hilton Head Island are welcome.

The County will host two meetings this month to discuss FEMA's [Private Property Debris Removal \(PPDR\) process](#) and determine which associations are interested in having the County remove their debris:

May 30 at 6 p.m.

Buckwalter Recreation Center
905 Buckwalter Parkway, Bluffton [\[map\]](#)

May 31 at 6 p.m.

Beaufort County Administration Building, Council Chambers
100 Ribaut Road, Beaufort [\[map\]](#)

Seating is limited, so associations are strongly encouraged to send no more than two (2) representatives. Participants do not need to register to attend, but are encouraged to RSVP via email to pcobb@bcgov.net or abowers@bcgov.net. Direct questions to the County's Disaster Recovery Team by calling 843-255-2721 or 843-255-2930.
